

MALVIKA SANGHVI

San Francisco, CA | 206-877-2948 | malvikasanghvi@gmail.com | linkedin.com/in/malvika-sanghvi | [Portfolio](#)

SUMMARY

Aspiring Product Manager with 7 years turning complex customer growth and operational bottlenecks into shipped outcomes, now building AI-native prototypes, most recently a conversational AI platform at Radiant Global Logistics. Recent M.S. Information Systems graduate (UW Seattle), focused on evaluation, safety guardrails, reliability, and enterprise-grade responsible AI.

EDUCATION

University of Washington, Foster School of Business, Seattle, WA

Mar 2025 – Jun 2026

M.S. Information Systems · GPA 3.76

Georgia Institute of Technology, Atlanta, GA

Aug 2012 – Dec 2016

B.S. Biomedical Engineering

WORK EXPERIENCE

AI Product Lead (Intern) | Radiant Global Logistics, Seattle, WA

Mar 2026 – Jul 2026

Publicly traded North American 3PL (NYSE: RLGT, \$900M+ revenue).

- Led enterprise conversational AI from concept to MVP, unifying SAP, ClickHouse, and RAG document search via MCP; slashed lookup times from 30 to <1 minute and presented the live platform to the C-suite.
- Drove product discovery and prioritization through user interviews and journey mapping, partnering with AI/ML engineers and Business Intelligence to focus the MVP on the highest-frequency, highest-effort workflows.
- Owned an agentic quotation framework through customer journey mapping, Google ADK multi-agent orchestration, and tool calling; cut quote turnaround from an average of 200 minutes to two minutes.
- Architected enterprise LLM release guardrails and a five-dimension LLM-as-a-Judge evaluation framework (including groundedness and faithfulness), achieving 95% query correctness and a 93.5% assertion pass rate.

AI Product Consultant (Independent) | Seattle, WA

Aug 2026 – Present

- Partnering independently to bring a company's outsourced marketing in-house, building an AI auditing agent that scores current performance, recommends a full-funnel strategy, and generates a prioritized, delegable task plan.

Product Manager (Contract) | Pratham USA, Bellevue, WA

May 2024 – Aug 2024

US arm of India's largest education nonprofit.

- Turned around a stalled student hackathon by diagnosing a channel-audience mismatch and restructuring GTM segmentation; grew registrations from 12 to 500 in under a month at ~\$1.40 CAC with 85% attendance.
- Mapped user journeys across five distinct personas and co-architected modular low-code/AI tech stacks with engineering, enabling 150 non-technical students to build and demo functional AI prototypes.

Lead Customer Growth & Engagement Manager | Pratham Realty, Mumbai, India

Aug 2021 – Apr 2024

Leading Indian residential real estate developer.

- Redesigned the homeowner maintenance-request triage around actual user behavior and co-developed a cross-functional priority-severity matrix with engineering and QA; slashed complaint escalations 83% and response times 68%.
- Instituted a closed-loop revenue attribution model across Marketing, Sales, and CS during a company-wide SAP migration; raised marketing attribution accuracy from 40% to 87% across a \$1M ad budget and reduced cost-per-booking 20%.
- Restructured the homeowners'-association transition by eliminating key onboarding friction points, lifting post-handover satisfaction 30% and cutting recurring developer maintenance costs 25% (\$15K/month).

Customer Growth & Engagement Manager I | Pratham Realty, Mumbai, India

Jan 2017 – Jul 2021

- Traced payment delays to a lack of buyer visibility, partnering with site engineers to deploy verified digital progress updates; cut collection cycles by ~25 days and protected \$3M in contracts from cancellation.

PROJECTS

SkinScore AI | [future-proof-portals.vercel.app](#)

Feb 2026 – Present

- Led product discovery for an AI skincare shopping companion, conducting 23 user interviews to uncover information asymmetry in cosmetic marketing and define the value proposition and MVP around personalized, explainable product guidance.
- Owned technical product strategy, pairing adaptive LLM intake with deterministic, RAG-grounded scoring; established a 30+ case trust-and-safety regression gate that surfaced and closed 5 safety gaps, with 0/21 adversarial breaches.

Isaiah, Voice AI Agent

May 2026

- Owned the interaction strategy for an accessible voice AI support agent for older adults, translating accessibility needs into adaptive pacing, longer turn-taking windows, and jargon-free troubleshooting to reduce conversational friction.
- Defined the agent's grounding and human-escalation strategy, restricting troubleshooting to verified support content and using confusion signals to trigger autonomous handoff when the AI could no longer resolve the issue confidently.

SKILLS

Product & Strategy: Product Discovery, PRDs, User Journey Mapping, A/B Testing, Experimentation Plans, GTM Strategy, Funnel Optimization, Jira, Figma

Analytics & Systems: SQL, Python, Snowflake, Tableau, Amplitude, Mixpanel, Closed-Loop Attribution Modeling, SAP S/4HANA

AI & Technical Architecture: RAG, Multi-MCP Architecture, Tool Calling, Agentic Orchestration (Google ADK), LLM Evals, Adversarial Red-Teaming, LLM-as-a-Judge, LangChain
